URBAXXES

AXXES = Design for mobility & Design for all

At URBASTYLE, we are aware that the urban environment must be planned to take account of the needs of as many people as possible. We are also aware that this is a process, it is impossible to meet the needs and concerns of all handicaps, all situations, but we are working in this direction. A street furniture lasts several years or decades in the case of concrete street furniture, we must therefore foresee, anticipate. This is why we integrate the proactive approach of universal design in the development of our new products.

We can't solve all problems with our furniture, it is also the responsibility of architects, planners, landscapers to arrange the furniture, design and develop, taking into account these special needs that in fact are ideal for all.

This "design for all" approach of URBASTYLE, this co-creation process, you will find it with the "We Care" logo and the following symbols.

Explanation of symbols:

Designed thinking about the visually impaired or blind people

Designed thinking about people with muscle or movement problems

Designed thinking about people with cognitive disabilities

Designed thinking about people with reduced mobility

Designed thinking about people with hearing problems

We think about the users = We care!

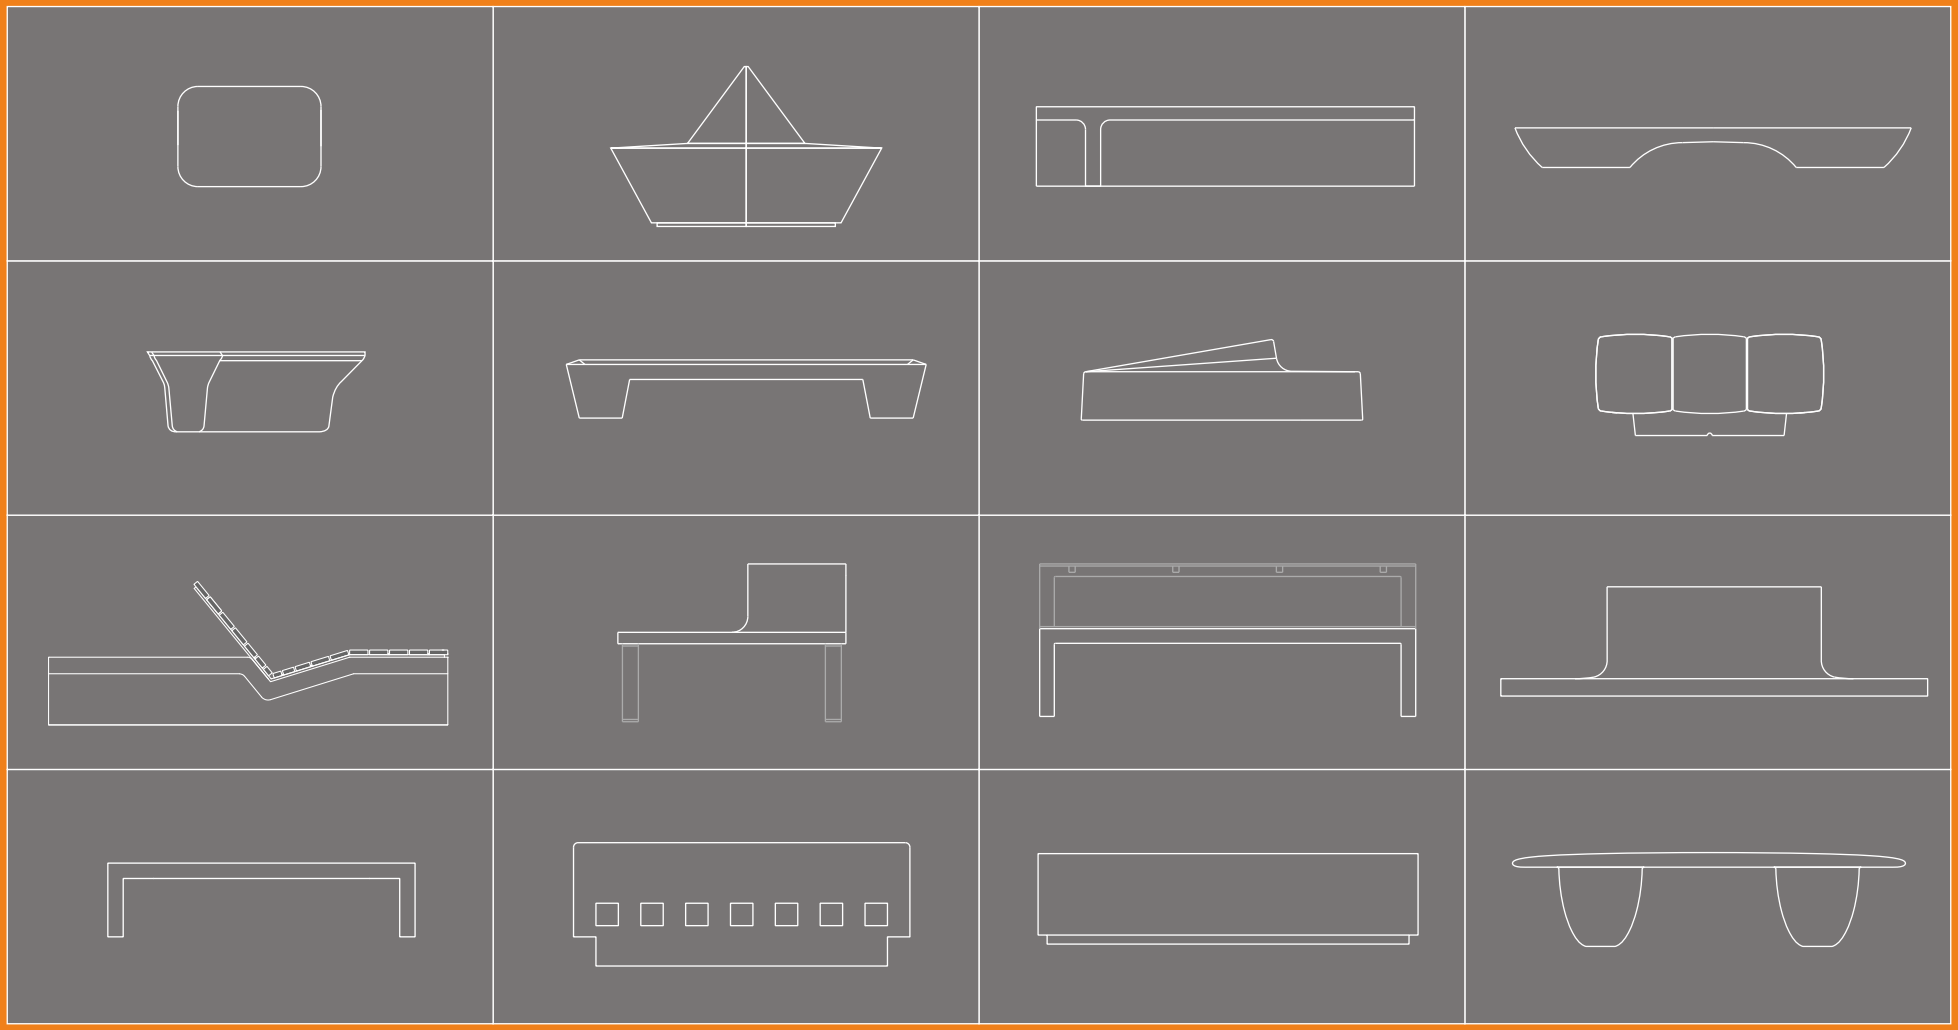
BENCHES



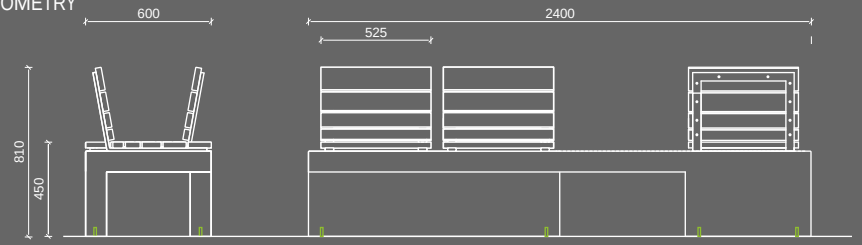
Bench Touquet

Designer: Lucile Souflet (BE)

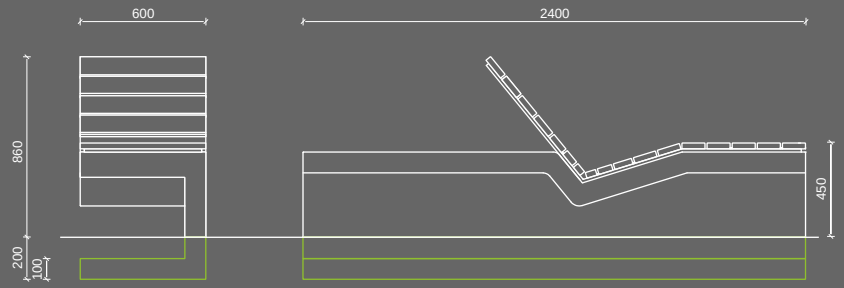
SPECIFICATIONS

MATERIAL	Cast stone Class 1 FSC Exotic wood - Electro-polished stainless steel 316L
FIXING	4x M12 Shelve - length 200mm for Ville 1 Free standing, partly buried for Ville 2, Soleil, Vent

GEOMETRY

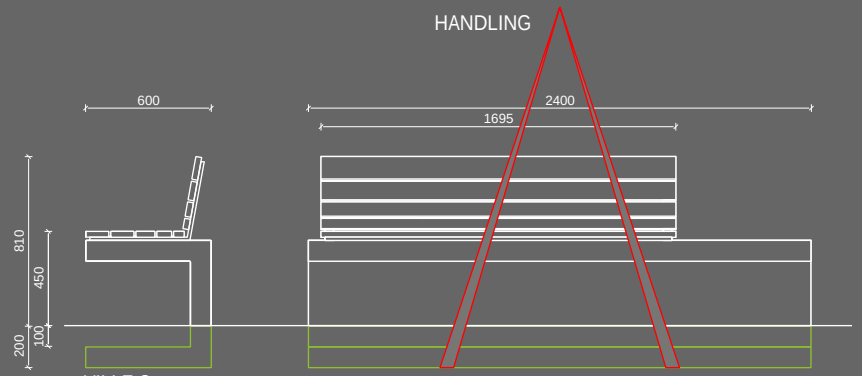


VILLE 1

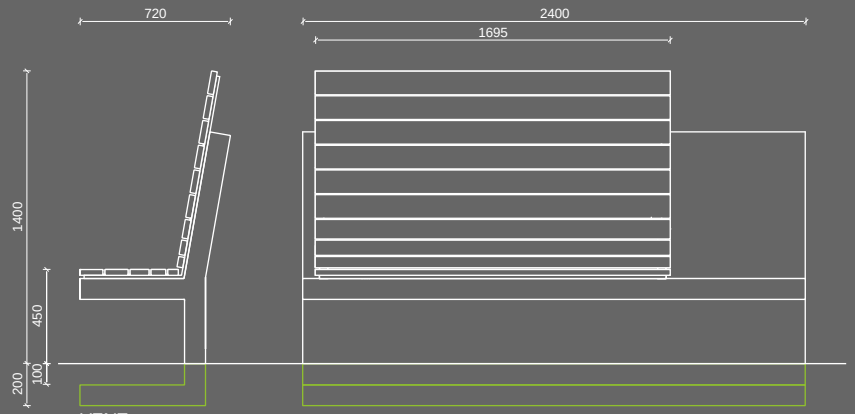


SOLEIL

HANDLING



VILLE 2



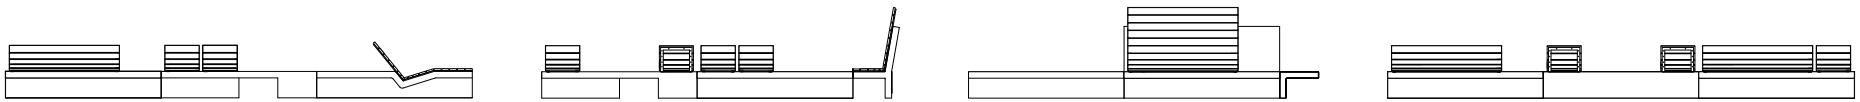
VENT

Appropriate seat height. Backrest is available for support. Easy to stand-up thanks to free room under the seating.

Bench Touquet

SPECIFICATIONS

WEIGHT	Ville 1: 456 kgs Ville 2: 912 kgs Soleil: 916 kgs Vent: 1296 kgs
FINISHES	Fair faced / Micro etched / Polished / Velvet Waterproof and anti-graffiti protection



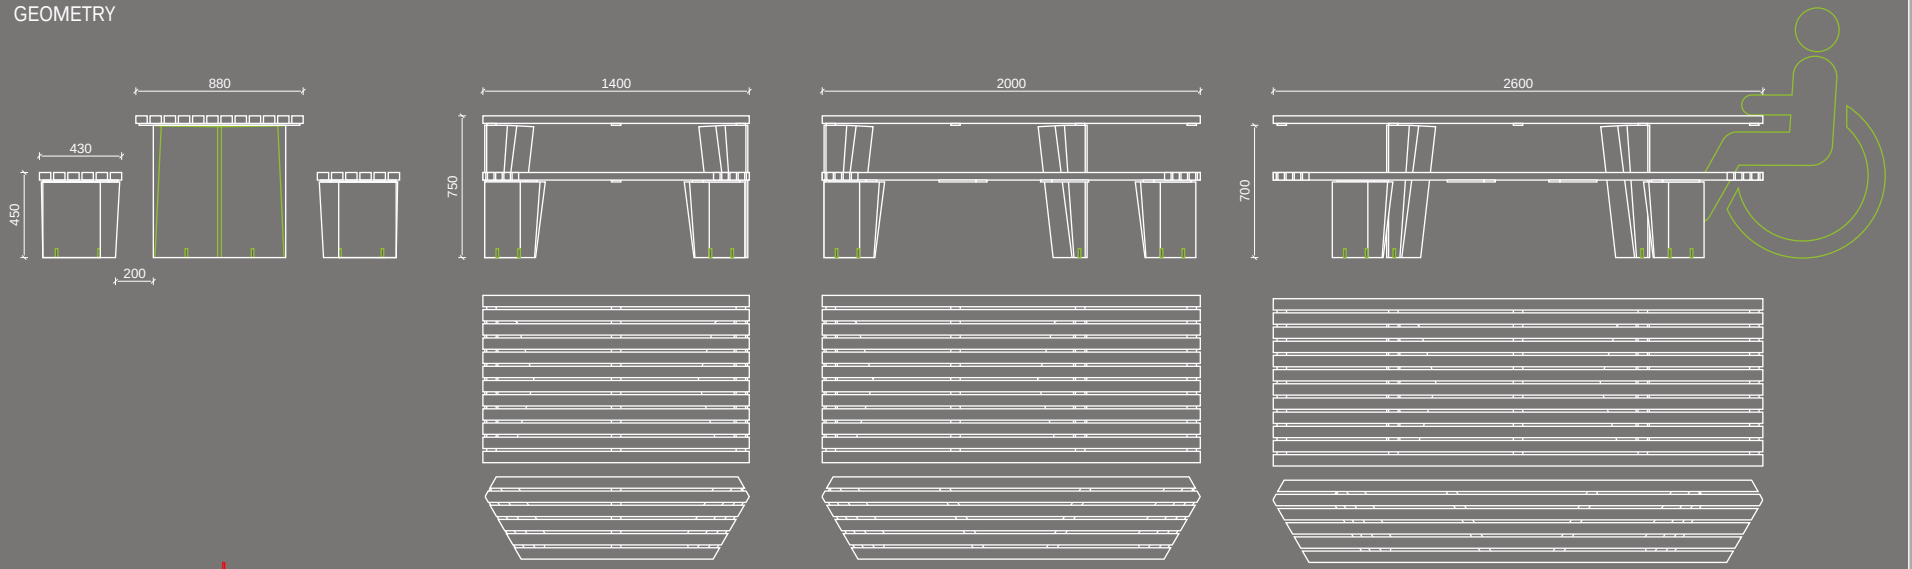
Combination tip: Butch Barbecue p. 114

Designers: De Ferm - Vanderhenst (BE)

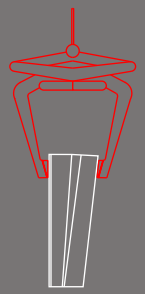
SPECIFICATIONS

MATERIAL	Cast stone Class 1 PEFC European Robinia
FIXING	4x M12 Shelve - length 200mm Free-standing
FINISHES	Micro etched / Polished / Velvet Waterproof and anti-graffiti protection

GEOMETRY



HANDLING



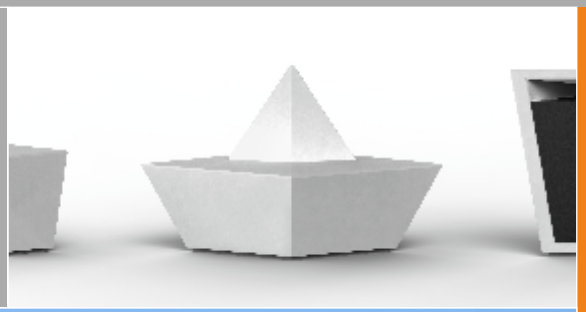
People in wheelchair welcome at table.
Perimeter is easily noticeable with white cane.
Appropriate seat and table height. Easy to stand-up thanks to free room under the seating.

Bench Paperboat

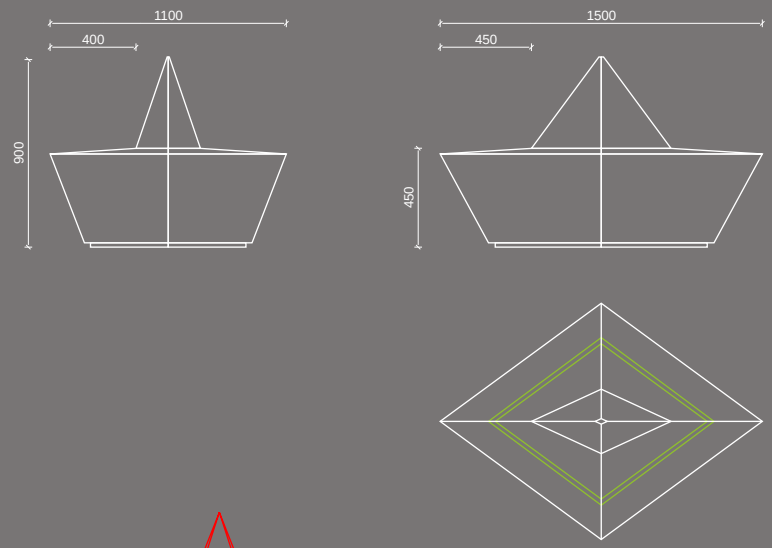
Designers: Crous Calogero (ES)

SPECIFICATIONS

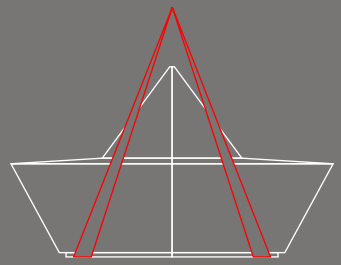
MATERIAL	Cast stone
FIXING	Free-standing
WEIGHT	624 kg
FINISHES	Micro etched / Polished / Velvet Waterproof and anti-graffiti protection



GEOMETRY



HANDLING



Perimeter is easily noticeable with white cane.
Appropriate seat height. Easy to stand-up thanks to back slope under seating.
Volume is easily understandable and friendly for people with cognitive disabilities.

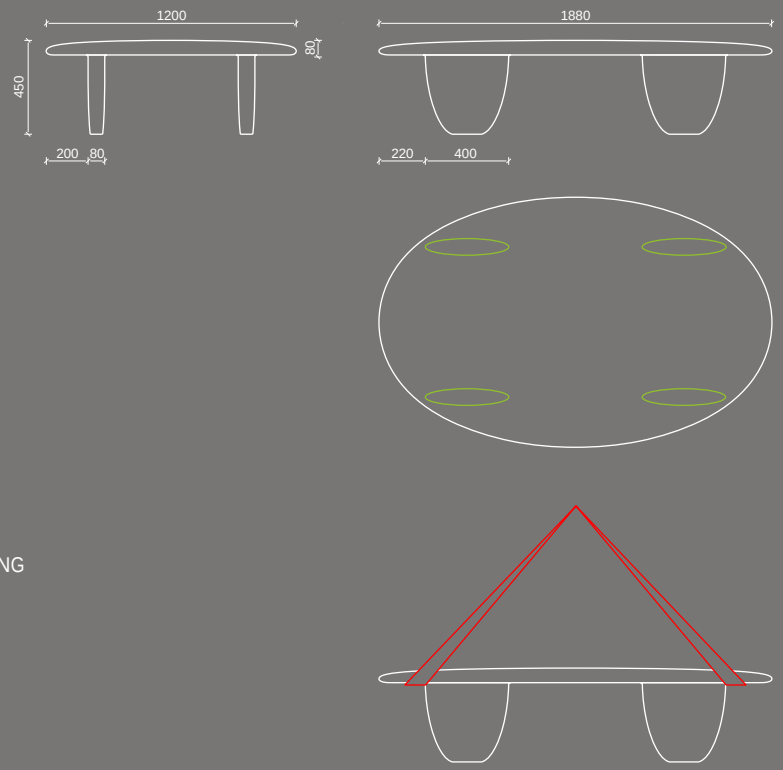
Bench Turtle

Designers:
Karen Schou Andersen & Hans Christian Asmussen (DK)

SPECIFICATIONS

MATERIAL	Cast stone
FIXING	Free standing
WEIGHT	290 kg
FINISHES	Micro etched / Polished / Velvet Waterproof and anti-graffiti protection

GEOMETRY



HANDLING

Perimeter is easily noticeable with white cane.
Appropriate seat height. Easy to stand-up thanks to free room under seating.
Volume is easily understandable and friendly for people with cognitive disabilities.

ACCESSORIES - OPTIONS

URBASTYLE
CONCRETE DIVERSITY

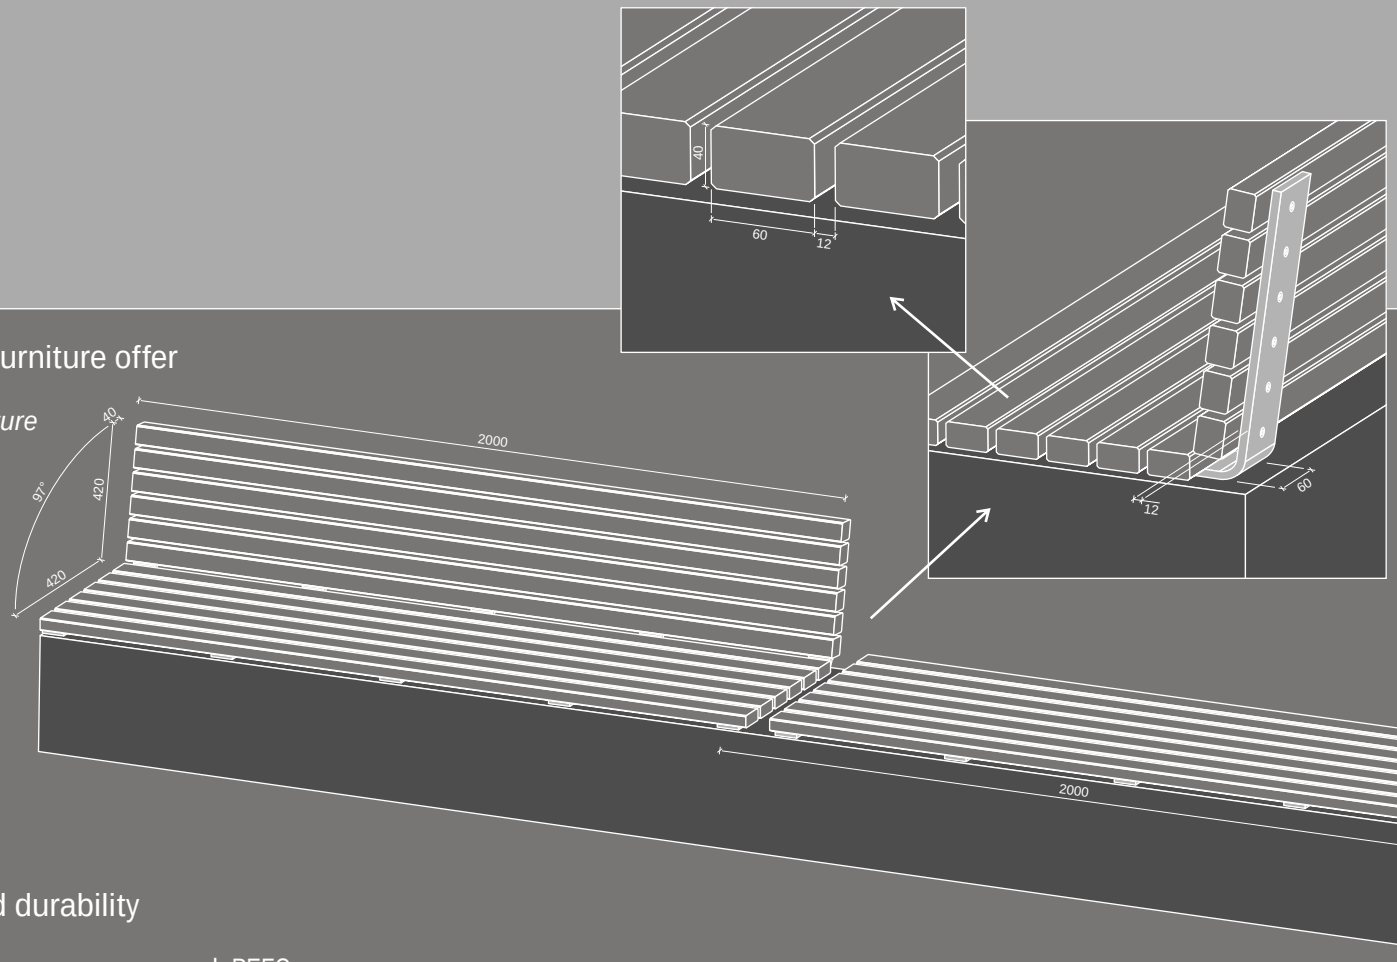
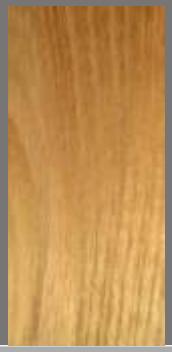
Specially designed to complete our street furniture offer

Standard wooden seatings on stainless steel structure





A question of quality and durability

Robinia wood is a durable European grown wood, PEFC.

(DIN-EN 350-2 durability class 1-2 / Belgian durability class 1 / French durability class IV).
Robinia is a hard and heavy wood of 740kg/m^3 (similar to oak), with an exceptional lifetime off-ground for urban furniture.

It comes untreated and does not require any treatment outdoor thanks to its natural robinetin antiseptic.
Wood has a smooth, light yellow to honey colour and will become greyish with time.

WE care

Seatings with backrest, armrests are made to help people to easily sit, rest and to stand-up.

LED LIGHTING

Outdoor lighting is a question of safety, beauty, orientation, practicality and comfort.

Show or hide the light source, choose the colour you want or decide to change it for another mood. LED lights that are encapsulated in the concrete with an aluminium profile at the factory.

The LED 24V solutions are IP68, the highest electrical protection level against dust and water.
